This is a show we're working on out of Seattle. Nuclear Chewing is a six episode comedy/drama web-series that we intend to put on Public Access here in Seattle and also hopefully take around to some smaller festivals.

I know it probably isn't up to the standards of the ITF but I just thought I'd post here. Our pilot episode is online right now although we're not planning to release anything else until June when the whole series is completed.

Anyway just thought I'd be the first to post in this forum.

Peace
